

SRINIVAS UNIVERSITY

Mangalore-575001, Karnataka (India)

Srinivas Research Centre for Communication and Networking

Mr. Satish Kumar B

About the Research Centre

This research centre is an initiative in the field of Communication and networking at Srinivas University College of Engineering and Technology (S.U.C.E.T), focusing various activities in the area of Communication. With the active participations from faculties and students of SUCET, this centre wish to progress in analog and digital systems for communication, control, and computer systems has made signal communication a key area of research and design. Engineers are constantly expanding the range of signals which can be sampled and processed and using them for real world applications and also intending to present papers in the field of communication at national and international seminars and conferences apart from conducting a large number of training programs in this domain. This also proposes an industry-academic partnership to form many of its activities.

Objectives

- Familiarization with special design tools to take up projects
- Expose students / faculty with the current trends in advanced communication
- Recognition as a core group working in the area of communication
- Develop expertise in various areas
