RESEARCH BASED PROJECTS

All courses of our college offer research based projects through undertaking dissertation through guided supervision.

In the Automobile Engineering department, a Multi Fuel Engine Test Rig operated using Engine Soft a Labview based software package developed by Apex Innovations Pvt. Ltd. is used for engine performance monitoring system.

In the Aeronautical Department, a wind tunnel facility for investigating the fluid flow phenomenon as well as for teaching the students regarding fluid mechanics and aerodynamics is set up.

SOFT SKILL

The soft skill and personality development programs are regularly conducted for the benefits of the students. These programmes prepare the students for placement and job interviews.
