About Marine Engineering Department

Marine engineering is the discipline in engineering that deals with the design, development, production and maintenance of the equipment's used at sea and onboard sea vessels like boats, ships and off shore platforms. The Department of Marine Engineering at Srinivas Institute of Technology offers was established in the year 2012 offers undergraduate B.E. Program with an annual intake of 60 students to impart technical skills of highest and contemporary quality to the blooming marine engineers who can work on shore and onboard ships. A marine engineering graduate who wants to sail has to undergo a one-year Graduate Marine Engineering (GME) training in any DG Shipping approved Institute. The department regularly conducts technical talks, special seminars, internship, industrial visits and hands-on workshops to bridge the gap between academia and industrial need.

Vision

To be a centre of excellence in Marine Engineering with quality education, responsive to the needs of industry and society.

Mission

- To achieve academic excellence through innovative teaching - learning practice.
- To inculcate the spirit of innovation, creativity and research.
- To enhance employability through skill development and industry-institute interaction.
- To develop professionals with ethical values and social responsibilities.

Job Roles of Marine Graduates

On successful completion of four year B.E marine programme students have wide range of career opportunities. Those willing to sail in merchant vessels need to undergo one year Graduate Marine Engineering (GME) course in any DG approved institute. Marine engineers get to join Engine Department with private and government shipping companies on Container Ships, Cruise, Tanker Ships, Ferries, Off-shore vessels and Bulklers. Diverse segments in the industry are Shipyards, Engine Manufacturing and Ship Building Companies, Research Cells and Maritime Universities that offer jobs to Marine Engineers.

Our students are placed as sponsored candidates in companies like: Anglo-Eastern Ship Management Services, Scorpio Ship Management, Wilhelmsen Ship Management and Great Eastern Shipping, BSM ship management, Mariapps, Apollo ship management and Seven Seas ship management. Considering the present global scenario, Marine engineering is the perfect choice for an aspiring engineer.

Department salient features

- Curriculum tailored to meet the shipping industry standards.
- Professional teaching staff with high levels of shipping industry experience.
- Classrooms with advanced teaching aids.
- Departmental Library housing books & technical manuals of merchant vessels.
- MoU with R.L Institute of Nautical Sciences Madurai and Gurucharan Industries, Baikampady.
- Special Training for sponsorship examinations of GME programs and other competitive exams.
- Individual student mentoring system.
- Well Equipped laboratories.
- Broadband with Wi-fi connectivity.

Department Activities

The department organizes industrial visits for all the students of department to various mechanical industries and shipyards. The department association AIMS conducts various programmes such as,

- Blood Donation Camps and social awareness programmes.
- Student outreach programs in line with new education policy
- Environmental conservation activities.
- Technical seminar and Hand-on training.
- Marine Parade & National festival celebration.

Career Guidance and Placement

A dedicated placement and training cell in the marine department with focus on developing soft skills from the 2nd year to Campus Interviews. Boot camps and training sessions will be given to students to excel in aptitude tests, coding rounds for core and noncore companies. Regular interaction with alumni and Industry professionals to help the students in placements.
