

**Institution has created an eco-system for innovations including Incubation center and other initiatives for creation and transfer of knowledge.**

The institution ecosystem supports to improve and enhance research quality, which will benefit researchers and society as a whole. Innovations are natured in University Educational systems through Academic and Research initiatives.

University provides a level of education and experience that equips students with the human values, skills, and intellectual discipline that will enable them to contribute to society through commitment to each student's education. To support these qualities, the university has 17 practices and the same is given in an additional document as an Attachment.

## INNOVATION ECOSYSTEM

**Figure 3.2:** Innovation Ecosystem

### **Research Innovation:**

The Research and Innovation Council of the University is committed to develop new knowledge and new interpretations of existing knowledge. The Research Council conducts regular awareness programs on research and publication ethics, IPR topics mainly on copyright and patents, for its faculties, students, and Research Scholars. The IPR cell of the university supports to file copyright and patent drafting and filing. Srinivas University believes in Open Access and Free Publications, which will reach all over the needy world scholars, academicians, and other interested people without any restrictions. With this intention, Srinivas University started a publication unit as Srinivas Publication with five journals in multidisciplinary fields, including Management, Education, Information Technology, Social Science, Health Science, Pharmacy, Psychology, and Languages. Srinivas Publication, A unit of Srinivas University, India, is an online International high Standard refereed and indexed Publication. Srinivas Publication publishes journal articles with ISSN and online books with ISBN. The five Journals are:

1. International Journal of Management, Technology and Social Sciences (IJMTS)

2. International Journal of Health Sciences and Pharmacy (IJHSP)
3. International Journal of Applied Engineering and Management Letters (IJAEML)
- International Journal of Case Studies in Business, IT, and Education (IJCSBE)
5. International Journal of Philosophy and Languages (IJPL)

**Initiatives for Creation of New Knowledge:**

All the faculty members, research Scholars, and Students can publish quality research articles in double- blinded peer-reviewed University International Journals for free of cost. This provides an environment to create new knowledge in different domains.

**Initiatives for Transfer of Knowledge:**

All the papers published in Srinivas Publications by the Faculty members, Research Scholars, and Students will be applied for Copyright registration in the name of authors by the Copyright Office, New Delhi. This is considered as a University initiative for retaining copyright and for the transfer of Knowledge.

**Innovative Online Workshops:**

Srinivas University conducts regular activities to instill research culture in its faculty members, research scholars, and students through various online workshops from 7.30 pm to 9.00 pm on stipulated days keeping in mind all its part-time research scholars who are busy with their work in the daytime. University conducts Research Scholars Paper contest competition and winners are awarded a certificate/cash prize.

**Srinivas University Incubators and Start-ups:**

Besides institutional and faculty atomic research centre projects, Srinivas University has started a new initiative of incubation centers through collaboration, at the university level, institute level, and departmental level called micro incubation centers. Through this SU has incubated many startups in various domains.
