## Accessibility

These checks highlight opportunities to improve the accessibility of your web app. Only a subset of accessibility issues can be automatically detected so manual testing is also encouraged.

**Contrast** — These are opportunities to improve the legibility of your content.

- ▲ Background and foreground colors do not have a sufficient contrast ratio.

**ARIA** — These are opportunities to improve the usage of ARIA in your application which may enhance the experience for users of assistive technology, like a screen reader.

- ▲ ARIA IDs are not unique

**Navigation** — These are opportunities to improve keyboard navigation in your application.

- ▲ Heading elements are not in a sequentially-descending order

**Names and labels** — These are opportunities to improve the semantics of the controls in your application. This may enhance the experience for users of assistive technology, like a screen reader.

- ▲ Links do not have a discernible name

**Best practices** — These items highlight common accessibility best practices.

- ▲ [user-scalable="no"] is used in the <meta name="viewport"> element or the [maximum-scale] attribute is less than 5.

**Additional items to manually check (10)** — These items address areas which an automated testing tool cannot cover. Learn more in our guide on [conducting an accessibility review](#).

**Passed audits (20)**

**Not applicable (19)**

Ref. No.:SU/RE/NT/2017/02

20/06/2017

**Subject: Scribe/Reader for Physically Disabled/Blind/Hearing Impaired Candidates during Examination**

**Guidelines for Scribe/Reader.**

1. The Physically disabled/blind/Hearing Impaired student may select the scribe/reader.
2. The scribe/reader need not have a lower qualification than the student, provided that the scribe should not have the same qualification (with the same optional subject and languages) of the examinations, which the student is writing (for example a student who has completed BA or MA can be a scribe for the student who is taking BSc examinations).
3. If a physically disabled/blind/hearing-impaired candidates and the scribes for such candidates shall be allowed an extra time of 20 minutes per hour.
4. As the hearing-impaired students are having a language problem, possibilities of Grammar mistakes, mistakes in building the sentences are there. Hence, the answer papers of such candidates shall be snickered with a sticker; such answer papers shall be evaluated with additional care.
5. Scribes/readers are instructed not to offer textual interpretations or alterations of content. They are passive participants in the reading/writing process.
6. The reader or scribe is not to comment on the test or give any form of input. However, in the case of blindness or visual disability, it may be necessary for the reader to offer an explanation of the layout or appearance of a page. This is necessary if the layout of the test item involves visual elements such as pictures, graphs or complex tabular information.

## Software for the Visually Impaired Students

Central Library of Srinivas University has the Brailleblaster Software and Duxbury Braille Translator for Visually Impaired students.

Brailleblaster is free and open-source text to Braille Converter Software for Windows whereas The Duxbury Braille Translator is another text-to-braille converter software for Windows. It is actually a paid software, but it provides a demo version that is completely free but with the limitation where one cannot save the converted file, but can print it. There is no time limitation on the demo version also hence it could be well utilized at the best interest of the Divyangjan.

- Brailleblaster is a feature rich braille translator software where one can work on multiple documents in different tabs at a time.
- The main window provide access to the Table of Content, Text Writer, and Braille Translation.
- Text Writer allows to type text on the keyboard and right section displays the braille translation of entered text content.
- Table of content simply shows the style of text in line by line manner and one can format entered text as blocked text, body text, centered text, displayed 3-5, heading, caption, etc.
- Allows content as a list, poetry, index, numeric, notes, play, etc.
- Permits to insert table and edit its properties, Transcriber generated pages, image placeholder, image describer, etc.
- It provides a Maths Editor to insert mathematical formulas.
- Can add typographical emphasis (bold, italic, underline, strike through) to text and convert it to respective braille representation.
- It lets to type in the Six-key mode, and get the respective braille symbols to insert to the current document and can change translation to 'direct' or 'uncontracted'.
- It provides a separate Braille Preview window too.
- Can customize Braille Standard (UEB, EBAE, Spanish, etc.), Page Properties, and Page Numbers.
- To save it supports BB XML and BRF formats and allows emboss the output braille document.
- It also allow to split or merge files to get desired output and easy access to most of its features, it provides a tools panel on its interface.

## Assistive Technology Policy

“Rights of Persons with Disabilities Act, 2016 states that the appropriate Government and the local authorities shall endeavor that all educational institutions funded or recognized by them provide inclusive education to the Children with disabilities and towards that end shall make building, campus and various facilities accessible.”

### OBJECTIVES

*Assistive Technology (AT) group at Srinivas University, aims at*

- Enhancing the lives of the differently abled community and thus ensuring their participation in the society and in educational systems.
- Assisting the differently abled students in the college by helping them overcome the issues with learning, writing, reading and communicating effectively with the help of assistive technology related tools, software support and services, thereby fostering their inclusion and participation in the learning process.
- Providing appropriate training to the staffs in the college on how to support students with special needs and how to use the technology effectively with their students.

### WHO CAN BENEFIT FROM ASSISTIVE TECHNOLOGY IN THE COLLEGE?

- Students and Staff with Disability.
- Students who are slow learners and having issues with memorizing concepts/tasks.
- Aged people / Persons with disabilities attending the workshops/seminars/conferences etc. organized by the college.

REGISTRAR

## POLICY STATEMENTS

- Srinivas University is against all forms of discrimination, on any grounds, including disability.
- To ensure the inclusion and participation, and for enriching the educational experience of the different abled students, Srinivas University ensures equal access to all educational equipments, visual and auditory information provided as a part of the teaching learning process.
- The institute ensures that the differently abled can access/avail the Assistive Technology related support and services provided to them, any time during the college working hours.

## AT RELATED FACILITIES IN THE CAMPUS

- **Conveyance Facilities**
  - Wheel chair is available for mobility purposes within the campus.
  - Elevator facility is available in important areas.
  - Ramps for accessibility in the main entrances are available.
- **Campus Facilities**
  - Institute ensures that the Classrooms, Laboratories, Library, Canteens, Restrooms, Hostel etc, are easily accessible to persons with special needs.
  - To aid students with hearing impairment, all the important announcements and notifications are displayed on the Projector / LED Display boards placed
- **Teaching – Learning Facilities**
  - Institute has adopted Cooperative learning techniques like Think- Pair-Share, Scaffolding, Adaptive learning techniques, to help students with learning disabilities and mild cognitive impairments.
  - Institute ensures the conduct of remedial classes /special classes to help students with special needs and students who are slow learners.
  - Scribe assistance or additional time is provided for writing the exams, on written request. Provision to allot separate rooms, which are easily accessible, by such students, is available.
  - An AT group has been formed in the college, which focuses on conveying the importance of technology in enhancing the lives of the differently abled community.
  - Recorded sessions of classes with captions, are made available, on request, to the students with learning disabilities.
  - Desktop systems equipped with text to speech converters, Screen magnifier software, screen readers etc. are made available on request.

### **ROLES - The Assistive Technology Team**

- Controller
- Dean / Principal
- AT Group Head
- Faculty in AT group
- Technical Staff

The AT team will carry out the action plan and will ensure that equal access is provided to all and that the quality of education is improved by incorporating inclusion in educational system.

### **MECHANISM OF ACTION PLAN**

The AT group should lay down well-defined procedures as mentioned below, that follows the indicated stages.

- Define the AT-related activities for the Academic year
- Create Implementation guidelines to make the campus more accessible

### **POLICY MONITORING AND REVIEW**

The advisory board shall monitor and review the efficacy of the policy on annual basis.
