SRINIVAS RESEARCH CENTRE FOR BIG DATA ANALYTICS IN HEALTHCARE

Ms. Lesleeta Lobo

Mr. Mangesh Nayak

Ms. Chaitra B S

Objective:

The research focuses on in-depth analysis in the field of Healthcare using big data and analytics. It also focusses on the improvement and analysis of the data. Big data is collection of large and complex data that is huge in size and is growing exponentially. It is often defined as velocity, volume and variety also with veracity. In order to provide best services to the patients, the hospitals have proposed various models of healthcare information systems. Various big-data analytics tools and methods have been developed for handling this large amount of data. Therefore, a great deal of research in this area will be required to solve the issues faced by the healthcare system.

Journal Publication:

Ruban S, Lesleeta Lobo, Shriraksha N Shetty, "A study and analysis on cross language information retrieval", https://www.ijltet.org/journal_details.php?id=922&j_id=4068, Special Issue - SACAIM - 2017, 155-157, #ijltetorg

Working Papers:

- ✦ A Study on challenges of Big Data.
- ✦ A study on Economic predictions with big data.

Coordinator of the Research Centre:

Ms Lesleeta Lobo
